C Rule – (1.7 Numerical Average)

The Board recognizes that extra-curricular activities, when properly planned and conducted in an appropriate, safe environment, represent an essential part of the educational experience. The Board supports such extra classroom activities and will attempt to make them available on a voluntary basis to the students. It is the Board's goal to provide each student with a balanced program of academic studies and extra-curricular activities.

Extra-curricular activities will be organized and supervised under the auspices of the school district. Extra-curricular activities shall not be secret in nature.

The following may be considered extra-curricular activities:

1. Student government and its related activities and organizations.
2. Musical festivals or contests, speech contest, debates, dramatics contests.
3. Organized activities which are part of interscholastic competition.
4. All types of interscholastic competition.
5. Special interest clubs.

The Board will approve specific extra-curricular activities through the authority it extends to school principals to authorize and administer them in keeping with this policy and regulations.

Academic Eligibility

Students who plan to participate in approved extra-curricular programs are expected to demonstrate a suitable level of academic preparation and success. Experiences in the educational program will be enhanced through opportunities to become actively involved in a diversified extra-curricular program. The student must show evidence that there is successful progress and performance in the educational plan in order to derive the benefits from extra curricular participation. Standards and eligibility criteria will insure a balance between the opportunities for academic success and extra-curricular participation.

Students who participate in approved extra-curricular programs must meet any eligibility criteria required by the organizational body, if any, which governs such program and the East Hartford Public Schools Extracurricular Eligibility Academic Standard.
